

# Shiv Yog Agriculture

**Flower Power Project, Austria**

Garden Center in Upperaustria with 50,000 Flower Pots on the Field in which the buds refused to open

40,000 Flower Pots in the Garden Center Hall. Total 90,000 Flower Pots. The owner was stressed because season was at its peak and nobody would buy those Flowers with closed buds

In Sept 2015 Shiv Yog Healing training program took place in Micheldorf in Upperaustria – One of the 90,000 closed Flower Pots was kept on Stage – To everyone's amazement it bloomed after a few days of Sadhna

After the training finished, the Flower Pot from Stage was taken and placed in the Fields

Group of Sadhaks went there on the Field and gave the Shiv Yog Cosmic Energy to the Fields with the 40,000 Flower Pots

Also daily Shiv Yog Distance Healing was sent to the 90,000 Flower Pots which were kept on the Fields and in the Hall over a Time Period of 14 Days

Through the daily Shiv Yog Healing slowly and continuously the Flower Buds started to open on the Fields....

As well as in the Hall Flower Buds were opening

Everyday they opened more and more

In a Timespan from 14 Days all Flower buds opened and all 90,000 Flower Pots were sold out which according to the Owner has never Happend before. The owner offered gratitude to Shiv Yog and Baba Ji

## Oberservations:

- This Flower Flower Type belongs to the widly known Flower Family of *Chrysanthemum Flowers*
- This Flower Breed is very depending on a speacial weather condition which happens normaly in middle-till end of August ,in this time there are a few days (3-4 days) which are colder then the rest of the Summer month –
- So this few Days when this cold period usually happends is needed for the flower to develop the Budsand the petals, so they can fully blum/blossom in the month of November – which is the high season in Europe to sell this flowers
- In this few days of cold period – which is so important for the flower to come out of the growth from leaves and change into the buds – this process is called INDUCE
- This Year through the climate changing which is happening, the Summer was unusual and extremly hot and this 3-4 Days of cold Period in August did not happend – which was a Disaster for all Flower Producers of Chrysanthemun
- Their hands were bound, one can squirt materials into the plants – if the plants grow so much and the stalks were too long and– but there is no medium to activate the process from leaves to turn into buds
- It was observed in other Garden centers /Producers in this area arround, the flowers did not sell like this garden center , some others gave up and have thrown away all of the flower pots as they did not flower

## Observations:

- The garden center is in a position on the map of Upper Austria where it is always very foggy and extremely cloudy especially in this time of the year. In the month from Oct to November
- The daily news on TV weather forecast for this area was raining and cloudy and foggy
- It was observed that when Shiv Yog Cosmic Energy was given to the flower pots – that the sunshine came out exactly in those days when the healing was given
- The moment the Shiv Yog healing was starting continuously flowing - orders were coming to the garden centers and exactly always the flowers which were ordered were opening, and were ready to sell.
- In a time span of 14 days all the 90,000 flower pots were sold out
- There were no reclamations as compared to last year, normally this is not such an easy process. The owner reported, this time all went very smoothly
- Owner of the garden center used to be very stressed and exhausted during this part of the year, said that this season was the first time that she was living a normal lifestyle during this heavy working season, her reaction was so different than all the years before and her life quality was much improved.
